Journal of Sustainable Mining

Instructions for the Authors

3rd version. 28 February 2014

Information about instruction is available from:

Małgorzata Kuśmirek-Zegadło
Tel. +48 32 259-24-04
fax +48 32 259-27-74
e-mail: mkusmirek@gig.eu

Magdalena Bemke-Świtilnik
Tel. +48 32 259-22-66
fax +48 32 259-27-74
e-mail: mbemke@gig.eu

The Editorial Office accepts the texts which were prepared only according to the following requirements:

GENERAL REQUIREMENTS

- Font: Times New Roman, 12 pt, line spacing 1.5, margins: 2.5 cm.
- File format: .doc or .docx
- The volume of text: from 3600 to 4500 words.
- The structure of the document:
  1. Title of the paper
  2. Authors
  3. Abstract
  4. Keywords
  5. The main text
  6. Acknowledgments
  7. References
- Please do not use styles in the text.
- Language: text should be submitted in English and/or in Polish.

SPECIFIC REQUIREMENTS

Title of the paper

- Bold
- Language:
  - For the authors from Poland – the title should be given in English and Polish
  - For the authors outside Poland – the title should be given in English

Authors

- Name, Affiliation – department, the institution (city, country)

Example:
Śląskie Centrum Radiometrii Środowiskowej, Główny Instytut Górnictwa (Katowice, Polska)
Silesian Centre for Environmental Radioactivity, Central Mining Institute (Katowice, Poland)

Please indicate the author for correspondence:
* Corresponding author: email, phone address, fax number

- Language:
  - For the authors from Poland – the name of the unit and the institution should be given in English and Polish

- For the authors outside Poland – the name of the unit and the institution should be given in English

Abstract

- Volume: from 200 to 500 words.
- Language:
  - For the authors from Poland – give the abstract in English and Polish
  - For the authors outside Poland – give the abstract in English
- The structure of the abstract (All units of abstract are obligatory):

Abstract	
Purpose	Text text text text text text text text text text text text text text text text text text text text text text text text text text text text text
Methods	Text text text text text text text text text text text text text text text text text text text text text text text text text text text text text
Results	Text text text text text text text text text text text text text text text text text text text text text text text text text text text text text
Practical implications	Text text text text text text text text text text text text text text text text text text text text text text text text text text text text text
Originality/value	Text text text text text text text text text text text text text text text text text text text text text text text text text text text text text

Do not: refer in the abstract to the references, figures or tables contained within the main text

Key words

- A minimum of 3 keywords.
- Language:
  - For the authors from Poland – keywords must be given in English and Polish
  - For the authors outside Poland – keywords must be given in English

Acknowledgments

This section should indicate the source of funding for research – project title, number, type of project.

If the paper did not originate under any of project and no funding was raised for research, it should also be noted.

References

1. References should be drawn up in accordance with the rules of the APA (name-date method)

When citing the literal text consisting of less than 40 words double quotation mark shall be used. References should include page(s) from which the text was cited, for example:

Text text text text “text text text text” (Axelsson, 2000, p. 110)

Do not apply quotation marks when citing the literal text consisting of at least 40 words. Quoted text should be separated by placing it in a separate block, 0.7 cm from the left edge. References should include page(s) from which the text was taken, for example:

Text text text text

> text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text text. (Axelsson, 2000, pp. 110-111)

2. Citing a source from a main text, the name (s) of the author (s) and the date of publication shall be provided.

   1 author:

   Text text text text text text text Axelsson (2000).

   Text text text text text text text (Axelsson, 2000).

   2 authors:

   Text text text text text text text Zawilski and Wierzbicki (2005).

   Text text text text text text text (Zawilski & Wierzbicki, 2005).

   3-5 authors:

   Text text text text text text text Lemieux, Lutes, and Santoianni (2004).

   Text text text text text text text (Lemieux, Lutes, & Santoianni, 2004).

   6 and more authors:

   Text text text text text text text Stańczyk et al. (2012).

   Text text text text text text text (Stańczyk et al., 2012).

   No author (book):

   Text text text text text text text *Mining Reference Handbook* (2002).

   Text text text text text text text (“Mining Reference Handbook”, 2002).

   No author (patent):

   Text text text text text text text UA Patent No. 20117 E21B43/295 (2000).

   Text text text text text text text (UA Patent No. 20117 E21B43/295, 2000).

   Organization / institution as the author, undated:

   Text text text text text text text (Forest Stewardship Council [FSC], n.d.).

First time: Text text text text text text text Forest Stewardship Council (FSC, n.d.).

3. For the second (and subsequent) text citations having at least three authors, another reference should include the name of the first author only.

   First citation:

   Text text text text text text text Lemieux, Lutes, and Santoianni (2004).

   Text text text text text text text (Lemieux, Lutes, & Santoianni, 2004).

   Second citation:

   Text text text text text text text Lemieux et al. (2004).

   Text text text text text text text (Lemieux et al., 2004).

4. Several works in references should be separated from each other in accordance with the following example:

   Text text text Lemieux (2004), Lemieux et al. (2004), Axelsson (2012).

   Text text text (Lemieux, 2004; Lemieux et al., 2004; Axelsson (2012).

   Works by different authors:

   Text text text Lemieux (2003, 2004).

   Text text text (Lemieux, 2003, 2004).

   Works by the same author published in different years:

   Text text text Lemieux (2003a, 2003b).

   Text text text (Lemieux, 2003a, 2003b).

5. All sources cited in the text should be listed according to the main text , arranged by names and dates. The list must be preceded by the header References.
6. The references shall not be grouped as printed and electronic.
7. Do not add to the references list data of literature not mentioned in the text.
8. The bibliographical data in Russian, Greek, Chinese, Japanese, etc., shall be transliterated into the alphabet in which the reported article is written.
9. Reference Examples:

   Journal article with DOI
